

# Job Search Homework

Getting a job is not always easy. It requires a lot of time and hard work. Most importantly, you need to fill out many applications in order to get an interview.

Go to four different locations and ask for an application or if they are hiring. If you need help with an application, please bring it to a volunteer and ask him/her to help you fill it out. Write the names of the locations you visited below and any notes about their hiring process, including when they will be hiring or the manager's name.
