

Date: October 23, 2009

Time: 9:00 AM—2:00 PM

Location: Lake Sumter Community College—  
Leesburg Campus, FL

This workshop provides an overview of the Fast Track Reading System, a curriculum developed by the Jacksonville Public Library (JPL) with the support of the Florida Department of State, Division of Library and Information Services. This curriculum focuses on using syllable division and syllable types as a way to strengthen the word attack skills of new readers. Discover the piece that your students have been missing and open up a whole new world of words!

We are thrilled to have Sharon Jaskula facilitate this workshop. What an incredible opportunity to have the creator available to introduce us to this amazing reading system!

## Fast Track Reading System

### Exploring the Relationship Between Sounds & Syllables

## Grant Writing for Literacy Funding

Gainesville, FL

Finding the funds to support literacy programs can be a challenge but once you have identified a potential funding source don't let the chance slip through your fingers. Join us for this informative workshop to learn all of the insider secrets to compiling and submitting a winning grant! We will discuss all of the components to the process — collecting statistics; developing objectives and goals; and the subtleties of submitting what the funder actually asked for.

This could be just what you need to submit that winning grant!

Visit our wiki for more details...
