

2015 Grant Opportunity- Florida Health Literacy Initiative

The grants supply health education materials and resources designed to improve the health literacy of adult learners and their families in a community-tailored manner. Working with local literacy programs, the Florida Health Literacy Initiative has already reached over 11,000 students in 47 communities throughout the state.

For more information on the Florida Health Literacy Initiative and the application for grant funding, please visit the [FLC Health Literacy webpage](#) (Deadline to apply – February 20, 2015).
