I noticed that my son had red eyes.

He touched his eyes frequently.

He had watery eyes, and they were itchy.

His eyes even seemed to be a little swollen. They were also sensitive to bright lights.

I took my son to the doctor's office.

The doctor gave me a prescription for eye drops because he had pink eye.

Then, we went to the pharmacy.

CHILD PAGE

Mommy, my eye is hurting.

My eyes are crying.

My eye is red.

Why is my eye so small?

I have an itch in my eye.
